

Tammy Herzig

a heart set free

Communicating God's heart from the pages of Scripture

Tammy Herzig has been a student of God's Word and a Bible teacher for nearly 30 years and her passion is to connect others to the heart of God through the pages of Scripture.

Tammy had always considered herself pro-life, until her untested convictions became inconvenient on a personal level. Her compelling story and biblical teaching on the value of the unborn is presented with great passion, clarity, and humility as she challenges her audience to action.

Tammy has been a voice for the unborn for a decade as a volunteer Pregnancy Resource Center (PRC) client advocate, a board member for two PRCs, and a spokesperson for the Sanctity of Human Life. Her personal and professional experiences enable her to connect with her audience in a unique way that helps them...

- * Understand God's love for the unborn in a world that devalues life.
- * Awaken to the genuine life-and-death nature of PRC ministry
- * Discover surprising statistical research and awe-inspiring scientific evidence
- * Identify a PRC's vital needs for finances, volunteers and prayer support.
- * Actively respond to mothers in need with the love, grace and compassion of the gospel.

As a speaker for your event, Tammy's message is customized to communicate the specific needs, statistics, and accomplishments of your individual center. As your ministry advocate, she can also provide a compelling and clear "Ask", inviting your audience to participate financially in rescuing the unborn. She is also available for speaking at churches and other ministry events.

A Kansas City native, Tammy has been married for over 35 years, has 2 married children, and grandchildren who delight her heart beyond measure. She enjoys time with her family, coffee dates with friends, reading, hiking, traveling, and playing with her dog, Samson.
